

YASHWANTH C

Electrical & Electronics Engineering Student

Chennai, India • +91 9361191183 • yash518c@gmail.com • linkedin.com/in/yashwanth-chakrapani-a5632a359

PROFESSIONAL SUMMARY

Results-driven Electrical & Electronics Engineering student with strong hands-on experience in circuit design, embedded systems, and hardware prototyping. Co-Founder of 4tech and Co-Treasurer of Crescent Energy Club with demonstrated technical and organizational acumen. Experienced in neural network kinematics for robotics, power conversion circuits, and solid-state wireless resonant systems.

EDUCATION

B.S. Abdur Rahman Crescent Institute of Science and Technology

July 2024 – Present

Bachelor of Technology (B.Tech) in Electrical & Electronics Engineering • Chennai, India

- **Academic Performance:** Semester 1 GPA: 8.7 / 10.0 • Semester 2 GPA: 7.5 / 10.0
- **Relevant Coursework:** Circuit Analysis, Electromagnetic Fields, Analog Electronics, Power Electronics, Control Systems.

Neelan Matriculation Higher Secondary School

Completed 2024

State Board Higher Secondary Examination (Class XII) • Chennai, India

TECHNICAL SKILLS

Programming:	C (IIT Bombay Certified), C++, Python
Tools & Simulation:	MATLAB (MathWorks Certified), Simulink
Circuit & Hardware Design:	AC-DC Power Supply Design, Solid-State Resonant Circuits, Linear/SMPS Topologies, Soldering
Core Competencies:	Neural Networks for Robotic Kinematics (4-DOF), Electromagnetic Theory, Analog Prototyping
Business & Productivity:	Microsoft Excel (Modeling & Financial Analysis), Microsoft PowerPoint, P&L Optimization

EXPERIENCE & ENTREPRENEURSHIP

4tech

2025 – Present

Co-Founder

- Co-founded and scaled a technical venture; directed project scoping, prototyping lifecycles, and operational delivery.
- Conducted feasibility analysis, resource management, and budgeting across internal initiatives.

Lansub Technology

Internship

Engineering Intern

- Assisted senior engineers with hardware-software validation, system requirements, and board-level testing.
- Conducted circuit debugging, component verification, and performance analysis against design metrics.

TECHNICAL PROJECTS & RESEARCH

Neural Network-Controlled 4-DOF Robotic Arm

Paper Presentation (In Progress)

Lead Author & Researcher

- Developing a technical paper applying Artificial Neural Networks (ANN) to resolve inverse kinematics and trajectory planning.
- Utilizing Python and MATLAB for joint angle mapping, reducing calculation overhead and improving end-effector precision.

Regulated 220V AC to 12V DC Power Supply

Hardware Prototype

- Fabricated an AC-to-DC conversion module with step-down transformation, bridge rectification, filtering, and regulation.
- Evaluated load regulation, ripple factor suppression, and thermal dissipation under varying resistive loads.

Solid-State Mini Tesla Coil (Slayer Exciter)

Hardware Prototype

- Designed a resonant circuit leveraging inductive feedback for wireless power transmission and high-voltage excitation.
- Demonstrated magnetic near-field coupling by wirelessly illuminating discharge tubes without direct electrical contact.

LEADERSHIP & CAMPUS INVOLVEMENT

Crescent Energy Club

2025 – Present

Co-Treasurer & Event Coordinator

- Overseeing club fiscal allocations, event budgets, and financial audits for departmental energy projects.
- Coordinated 2 flagship campus events, managing workshop logistics, guest speakers, and 150+ attendees.

CERTIFICATIONS & LICENSES

- **MATLAB Onramp** – MathWorks Training Services (Feb 2026)
- **C Training & Certification (Score: 75.00%)** – Spoken Tutorial, IIT Bombay / EduPyramids (Nov 2025)
- **Financial Accounting Fundamentals** – University of Virginia (Coursera)
- **Profit & Loss Optimization** – HP LIFE Foundation (ID: 11c97816-9984-49bd-9e9c-e4f42fab059c)
- **Basics of Finance & Break-Even Analysis** – HP LIFE Foundation (ID: d73aca12-588d-43d4-947e-14cbdbe77746)

LANGUAGES

English (Professional Working) • Tamil (Native/Bilingual) • Telugu (Professional Working - Spoken) • German (A1 Elementary - In Progress)
